

As we move closer to closing the books on one of the most challenging years for our business and our country, we want to thank you for your partnership and extend our wishes for the continued health and safety of you and your team members.

The pandemic has impacted many aspects of our business and introduced volatility into areas that were once predictable, resulting in supply chain disruptions, material and freight cost increases, and in some cases elimination of key supply partners.

For months we have worked diligently to try to maintain service levels while controlling operating costs. We have absorbed a myriad of cost increases hoping that things would normalize to pre-pandemic levels. Unfortunately, that outlook has changed, and we can no longer absorb the full impact of these increased costs.

Effective February 1, 2021 we will be implementing a part specific price increase across most of our line that ranges from 2.5 – 4.2%. At the same time, we will be eliminating the tariff surcharge we have been charging for the past year. This announcement is being made early to provide you plenty of time to react. New price lists will be available on or before December 31, 2020.

The deadline to submit orders using current pricing is 4:00pm Eastern Time on January 31st, 2021.

The entire Auveco team is grateful for your loyal support. Because of you, we are here and have endured a very challenging 2020. We look forward to serving you and your aftermarket needs for years to come.

Thank you,
The Auveco Team

Delivering the world's largest selection of automotive body hardware and specialty fasteners
