FasTrack Web

Keep Your Ear To The Ground.
You won't want to miss
the soon-to-be announced exciting news
regarding Auveco's **FasTrack Web Cost Recovery Software**.

Although in the past year we added features to FasTrack Web like the ability to **Print Individual Item Bar Code Labels, Create Customized Metal Drawer Assortment Lid Labels** and **Upload Spread Sheets of non-Auveco part numbers**, that's nothing compared to what we will be introducing soon, very soon in fact. These FasTrack enhancements will be sure to catch the attention of your **Body Shop Customers** as they seek **new and innovative ways to improve their bottom line.** With insurance companies squeezing every penny they can out of them, Body Shop owners need your help in ensuring they **turn a profit** on their clips and fasteners. That's why it's important you make them aware that Auveco's **FasTrack Web Cost Recovery Software** can do that very thing for them.

FasTrack Web is the easy-to-use, web based application that enables the Collision Repair Shops to quickly and easily **create an invoice** for those items that need to be "**added on" after the repair process** has been started. Everything from **Fasteners** to **Seam Sealer** to **Cavity Wax** to **Undercoating** and more can be included on the **Supplemental Invoice**.

TWO MONTH FREE TRIAL OFFER!

Right now is an excellent time to promote FasTrack Web to your Body Shop Customers. As a special incentive to introduce more Body Shops to the advantages of using FasTrack Web, Auveco is continuing to offer interested shops **TWO MONTHS** of **FREE ACCESS** to the full features of the application. Your Shops can utilize the application to start recovering the cost of the clips and fasteners used in a collision repair job. **This will make the shop more profitable and enhance their loyalty to you, their servicing Auveco Distributor.**

Watch for the **announcement of the new FasTrack Web features in your Hot New Item Bulletins**. In the meantime if you have any questions or want more information, contact **Mike Abrams** at 800-354-9816 ext. 103 or mabrams@auveco.com.

And don't forget the on-line tutorial videos for FasTrack Web users; instructional videos so that you don't have to be a trainer.
