17342 & 19293**

FasTrack Web

Have you heard the latest?

We promised some exciting news regarding Auveco's **FasTrack Web Cost Recovery Software** and here it is.

Now FasTrack Web users have the **ability to create kits for their supplemental invoices where they can detail all the components involved in a specific repair process.** For example, you can make a Chevrolet Equinox Center Post & Rocker Panel repair kit that lists 7 of Auveco 20756 moulding clips, 1/4 can of weld thru primer, 1/2 tube of 2 part seam sealer, 1/4 can of self etch primer, 1/2 can of undercoat, etc. The kits can be as specific (2005 Chevrolet Equinox Driver's Side Center Post & Rocker Panel) or generic (Center Post & Rocker Panel) as desired. **Once the kit is created it can be saved, called up for the next job and modified as needed.** Just think of all the time FasTrack users will save by utilizing this new feature; and remember **"Time is Money."**

FasTrack Web is the easy-to-use, web based application that enables the Collision Repair Shops to quickly and easily create an invoice for those items that need to be **"added on" after the repair process has been started.** Everything from **fasteners to seam sealer to tape to sandpaper and more can be included on the supplemental invoice.**

TWO MONTH FREE TRIAL OFFER!

Right now is an excellent time to promote FasTrack Web to your Body Shop Customers. As a special incentive to introduce more Body Shops to the advantages of using FasTrack Web, Auveco is offering interested shops **TWO MONTHS of FREE ACCESS** to the full features of the application. Your Shops can utilize the application to start recovering the cost of the clips and fasteners used in a collision repair job. **This will make the shop more profitable and enhance their loyalty to you their servicing Auveco Distributor.** On-line instructional videos at www.auveco.com eliminate the need for the Distributor to perform any training functions.

BUT THAT'S NOT ALL!

Watch for another major announcement of a new FasTrack Web feature in your Hot New Item Bulletins. In the meantime if you have any questions or want more information, **contact Mike Abrams at 800-354-9816 ext. 103 or mabrams@auveco.com.**
