We are proud to announce our latest cutting edge FasTrackWeb System feature:

The new iPhone Scanner App!

Now every **FasTrack Web** customer can have the ability to use their iPhone or iPad as a barcode scanner – and best of all – it is **FREE** with all FasTrack Web subscriptions!!

Not only does the iPhone Scanner App perform all the same functions as the current hand-held scanner, it also allows you to go back and make a correction if a wrong part number has been entered.

Your **FasTrack Web** customers can have immediate access to this exciting new App simply by logging in to their **FasTrack Web** account. App instructions are shown on the home page and in the help menu.

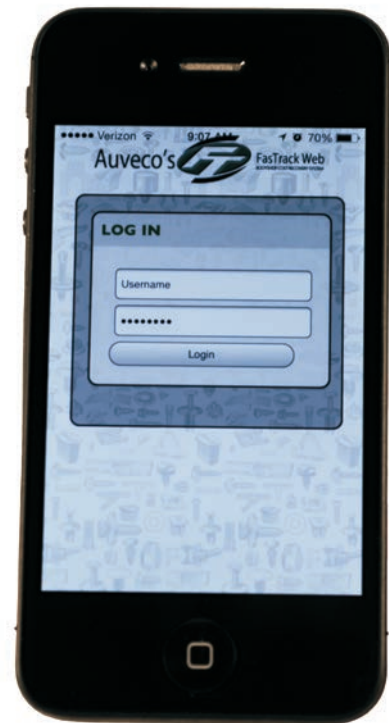

Android phone users will have availability to this feature in the near future too.

The **FasTrack Web Cost Recovery Software** is already in use in over 3,000 Collision Repair Centers and continues to grow in popularity! The system is web based so it's always up-to-date with the newest items from Auveco and current OEM prices. As you know, OEM prices provide indisputable prices for clips and fasteners to submit to insurance companies.

If your customers aren't taking part in this cost recovery system yet, it's a great time to show them how it's never been easier to make a profit on the clips and fasteners they use every day in vehicle repair. Auveco's **FasTrack Web** makes it happen!

So, take your iPhone or iPad with you to your body shop customers and show them this exciting new profit-generating feature.

They'll be glad you did, and so will you!

There's never been a better time to grow your business.
