## HEAVY-DUTY RIVETS

Introducing our new heavy duty rivet line, featuring three new rivet types perfect for a wide variety of applications:

- **Tri-Fold Blind Rivets:** Superior retention compared to standard pop rivets. Thanks to their increased surface area, these rivets ensure better retention, making them perfect for thinner metals without causing damage to the materials.
- **Interlocking Structural Rivet:** Exceptional performance, especially in scenarios demanding vibration resistance, structural strength, and multi-grip capabilities. With their multi-grip structural design, they not only provide a fully sealed joint but also guarantee vibration resistance, making them the go-to choice for strong and secure fastening solutions.
- **Monobolt® Style Rivet:** Designed for demanding safety and performance applications, offering an ideal solution for situations requiring a high-strength fastener with access from just one side. These blind rivets excel in creating fully sealed joints, ensuring reliability and durability.

### TRI-FOLD BLIND RIVETS WITH RUBBER WASHER

- Aluminum rivet & mandrel
- Dome Head
- EPDM rubber washer provides watertight seal
- Used in recreational vehicle, heavy-duty truck, marine and general purpose applications
